## About Cash Valve

Cash Valve products are for steam, air/gas, liquid, and cryogenic applications.

**Cash Valve** provides highly engineered pressure regulating and back pressure valves along with custom packages for OEM engineered applications for industrial and commercial customers who require mechanical control of pressure.

Cash Valve offers a wide selection of pressure reductions with initial inlets of 720 psi and reductions from 1 to 400 psi. Products range in size from 1/8" - 2" for threaded NPT connections and up through 6" for flanged configurations.

Temperatures range between cryogenic up through 800°F. Materials of construction are offered with iron, brass, bronze, carbon, and stainless steel depending on your application and diaphragms of various elastomers and metal configurations.

**M&M Control offers all Cash Valve products.
