August 2019 . . . **M&M Distributes the Finest Names in the Industry!**
This Month's Featured Manufacturer:

The banner features the Sterling logo (a stylized 'S' in a circle) and the Sterlco logo (the word 'Sterlco' in a script font) on a black background. Below this, four product categories are shown in separate boxes: Temp. Control Valves, Radiator Valves (with models 518 and 511 labeled), Y Strainers, and Steam Traps. At the bottom of the banner, the Sterling logo is on the left, the phone number 800-876-0036 is in the center, and the M&M logo is on the right.

Sterling Engineering Company (Sterl Co) began designing and manufacturing valves, traps, strainers, and condensate pumps for steam and hot water systems in 1916. Today, with more than 100 years of experience in commercial and industrial steam application solutions, a diverse engineering staff, state-of-the-art engineering design and custom applications, Sterlco is uniquely suited to meet your individual requirements and specifications.

Sterling Steam Control products are designed to help you maintain temperature, flow, and pressure, ensuring you get the most from your system. Sterlco® [Temperature Control Valves](#) are temperature actuated, self-powered, fully balanced, and applicable to heating or cooling processes using water, oil, steam, or other fluids. Simple yet efficient design requires minimum maintenance and heavy-duty construction assures long valve life.

Sterlco [Radiator Valves](#) feature practical, simple styling for your steam or hot water heating systems. Sterling Sterlco® [Strainers](#) are engineered for water or steam, and are adaptable for many other uses. [Steam Traps](#) are preferred for efficient, economical vacuum, and pressure service.

2' NPSH K PUMP
Condensate & Boiler Feed Units
Pump adaptor kits available for aftermarket applications.
High Temperature Operation - up to 212°F
Reduced Maintenance Cost
Improved Availability
STERLING
Sterlco

The [Sterlco® K Series 2' NPSH](#) Pump is designed to pump hot condensate up to 212° F on elevated tank units. If a steam trap fails in the system, this unit will continue to operate up to 12° higher than standard units. The added inducer increases vapor pressure and prevents the whole system failing from pump cavitation.

M&M Control Service is a stocking distributor for Sterling Steam Control.

Do you know . . . which is the proper pump for your application? We can help you! Call M&M for assistance at 1-800-876-0036.

Sincerely,
Paul Fionda
VP Operations

M & M Control Service, Inc. is a leading distributor of pneumatic, electronic, and self-contained valves, controls, and process control equipment. Our commitment to quality products and exceptional customer service is renowned in the industry. Our sales engineers are factory trained to provide you with sizing, application, configuration, or installation assistance.

**FACTORY DIRECT PRICING!
PRODUCTS INCLUDE:**

Valves:

Gate, ball, butterfly, gas valves, solenoid, control, needle, water, steam, instrument, automatic, thermostatic, pneumatic, electronic, mixing, check, and relief valves.

Gauges:

Pressure gauges, utility gauges, process, industrial, commercial & contractor gauges, HVAC/R, and specialty gauges.

Controls & Controllers:

Pneumatic / electronic HVAC, process, combustion, PID, recorders (strip/circular/paperless), and indicators.

- Calibrators
 - Flow Meters
 - Regulators
 - RTDs
 - Transducers
 - Sensors
 - Steam Traps
 - Strainers
 - Thermocouples
 - Thermometers
