This Month's Featured Manufacturers

West Control Solutions specializes in providing top quality temperature and process control instrumentation. Gems Sensors & Controls, Partlow, CAL Controls, and West Instruments are part of this elite group of brands that combined its resources and expertise with the West CS name. West CS products meet today's automation marketplace demands, and include single and multi-loop controllers, limit devices, indicators, and recorders and tools for data acquisition.

Excellence * Expertise * Innovation

Partlow high quality products include electronic controls, temperature limit controllers, process indicators, and recorders and data acquisition.

Gems Sensors & Controls serves industries with its broad range of liquid level, flow, and pressure sensors, miniature solenoid valves, and integrated fluid management solutions.

CAL Controls supplies a range of solutions from simple temperature control to programmable process controllers and software for configuration, networking, and process monitoring.

West Instruments include temperature and process controllers from simple, entry-level temperature controllers to highly sophisticated, functionally rich products and solutions.

M&M Control is a stocking distributor for West CS and its affiliated brands.
