Apollo® Valves: Created when two brass valves and fittings manufacturers merged in 1928 forming Consolidated Brass Company, "Conbraco" became a leading producer of American-made flow control products. Then, in 2005, Apollo Conbraco brought its products under the Apollo® Valves brand name.

Today, Apollo® Valves manufactures ball valves, butterfly valves, safety relief valves, actuators, control valves, check valves, mixing valves, backflow preventers, fittings, and more, while developing new product to meet the demands of the industrial and commercial marketplace.

In 2010, Aalberts, a global Dutch company, purchased Conbraco. Now combined and manufactured under the company name Aalberts integrated piping systems, the "Apollo" brand continues to produce top quality and reliable flow control solutions.

Apollo | Quality · Safety · Reliability · Control

[Safety Relief Valves](#)

[Check Valves](#)

[Actuators & Controls](#)

Safety Relief Valves: Safety relief valves protect ASME Section IV hot water heating boilers and hydronic heating systems. High capacity design features corrosion resistant construction in a variety of finishes.

Ball Valves: The Apollo 77CLF300 Series Union End Ball Valve features dezincification resistant Lead Free bronze body, generously sized RPTFE seats and stem packing, and a lead free "Solid Ball" design that delivers true full-port flow performance.

PRVs: The Apollo Model FF Fast Fill/Feedwater Pressure Regulator provides the heating boiler with make up water at reduced inlet pressure with a high capacity purge / quick fill capability. They are manufactured in the US from ASTM grade materials for corrosion resistance and long life.

Check Valves: The Apollo® Model DC4AY Double Check Valves and DCLF4AY Lead Free Double Check Valves prevent contamination of the potable water supply due to back-siphonage or backpressure.

Actuators & Controls: Apollo pneumatic rack & pinion actuators provide ultimate durability and outstanding service life. Replaceable insert drive adapters in all but the largest models. Numerous actuator drive and bolt pattern combinations allow direct mounting of several valve styles.

M&M Control offers a full line of Apollo products. For additional product detail or for help with your application, please refer to our [Apollo](#) pages or give us at **1-800-876-0036!**
